\*\*\*WELCOME\*\*\*  
\*~TO 3FRIENDS DESIGNS~\*

We have been working on this site for awhile...  
continuously trying to make it a great place for all!

We create Tourney Pages for Leaguers and Tubes for PSP Addicts.

We will also create Tags for your League pages upon request!

The graphics used were created by us...  
however we have used many images found on the Internet.

We have used the images to achieve the affects needed in our pages.

We try to use images that have no copyright, and sometimes the images we find on the internet, do  
not have copyrights.

If you are the artist and we have used something that we should not have please contact us by e-  
mail.

**WE DO NOT** claim any images to be our own property, only for the **HOURS** we have spent on  
creating pages, coding the page, putting this all together and for the use of the server which costs  
us.

All images have their owners/artists and we use them to fit other people's needs and styles.

All tournament pages are for **PERSONAL** use and free to use, all we ask is that you keep our link  
intact!

The tubes under the tubes link, are all images tubed by us.

You are free to use the tubes....all we ask is that you keep the watermark in tact and give us credit  
for the work that we have done.

We don't add music to our pages, we leave that to your descretion. We do provide on the right  
sidebar a great place to locate some awesome music for your pages.

Please browse our site and let us know if we can improve upon it. If you would like your site listed in  
our sidebar, please E-mail us with a link and a banner.

Thank you! \*~3Friends~\*
